

Intranet based on SAP NetWeaver Portal at a fixed price

Intranet Starter Package 45.000,- € plus VAT

Challenge

Employees spend about 30% of their working time searching for the right information (for the successful completion of their work). The lost working time or productivity resulting from this leads to a decline in competitiveness.

Another crucial factor of unproductive labour is ineffective or poor internal communication. The required contact persons are often identified too late or not at all, so that valuable and existing knowledge must be arduously worked out again.

The challenge hereby is to cover the information needs of the employees with a suitable communication platform. btexx would be glad to help!

Services

The btexx Intranet Starter Package offered at a fixed price provides you with the means to realize your intranet based on the SAP NetWeaver Portal. Included in the price is a licence for our user-friendly portal management system btexx easyWCM. Based on this technological solution, we provide you with an enterprise portal customized to your needs. An intranet structure in the best-practice approach also contains all the essential elements for a proven content structure.

The faster access to crucial information and people with expert knowledge increases your efficiency and your competitiveness.

Your benefits

Take advantage of this fixed price offer as an accelerator for your intranet project and benefit from the longstanding experience of btexx concerning implementation in over 200 SAP portal projects.

The implementation is based on the btexx process model with templates and best-practices as well as our proven portal management solution btexx easyWCM. For you this fixed price package means a calculated, safe, quick and uncomplicated project approach, because the product and consulting comes from one source.

Existing SAP licences for the software component SAP NetWeaver Portal serve as an optimal precondition to implement your enterprise portal. btexx easyWCM is based on SAP standard and is 100% SAP compatible.

These are the benefits you will receive in detail:

Intranet Starter Package in detail

Installation and basic configuration of the SAP NetWeaver Portal (test and productive system)

Integration of the SAP NetWeaver Portal into your system landscape (user management via LDAP, Single Sign-on to SAP backend system)

Licensed btexx easyWCM 4.0 (up to 5 editors and up to 1000 end users)

Installation of btexx easyWCM 4.0

Requirement workshop with your contact persons – marketing, corporate communication, IT, etc. (2-days)

Creation of the information architecture (4 types of pages, 3 content elements, role and authorization concept)

Deployment of a web based collaboration platform for documents

Adjustment of the supplied btexx easyWCM 4.0 External Facing Portal Framework (EFP) to meet your company's preferences (only colors and logos, no structural changes)

Installation and configuration of the SAP Standard Portal Search (TREX)

Implementation of the proven intranet content: company news, news ticker, personal pages, cafeteria menu, new employees, photo gallery, download area, FAQ

Efficient HTML editor for easy content maintenance

Training of your editors handling btexx easyWCM 4.0 (1-day training)

Performance tuning before operation handover

Creation of an individual operation manual for the handling of your SAP NetWeaver Portal

Requirements

You already have SAP licenses for the use of the software component SAP NetWeaver Portal available in your company. On top of that you provide the necessary hardware for the portal installation.

Consider our offer and talk to us about your requirements!

Price

45.000,- € plus VAT

¹ Additionally the conditions and regulations of btexx consulting and the btexx easyWCM licence agreement apply.
